We have blocked off 1.5 hours per school site.

Please plan on beginning the day with a greeting in a central location (ex. Media center or classroom). Be prepared to provide a 15-20 minute presentation based on the Framework for Success, highlighting the following:

- Basic demographic info- enrollment, demographics, etc.
- Progress towards academic goals, highlighting strategies such as intervention/remediation for addressing areas of need
- Structure and monitoring of PLC work
- Focus of walkthroughs
- Removing non-academic barriers to success- safety and security, attendance, mental health challenges
- Opportunities for family engagement

This will be followed by approximately an hour of classroom visits, followed by a few minutes to debrief and ask/answer any questions.
