

Addition of Teacher Workday

Considerations:

- November 8th is Election Day. Currently, all schools are in session for students and staff on this day.
- Seven schools are used as polling sites.
- Changing November 8 to a teacher workday would reduce student instructional days to 176 for traditional and year-round calendar students. Early College students would have 179 instructional days.

Recommendation: For all district calendars, designate November 8 as a teacher workday.
